INVESTORS!

Do not fail to investigate the merits of the
SILVER BEACH
ADDITION TO
STEILACOMO!

One-fifth cash, balance either monthly or quarterly. This property is unsurpassed for residence purposes, at the same time presenting greater inducements to the speculative than any other property on the market. The same amount of money cannot be invested to equal advantage at any other point on the coast. The advantages and merits of Steilacoom are recognized by all, and in the judgment of those who have made a study of the data concerning real estate investments in the United States, property at this point will, in less than ten years, be worth thousands where now it sells for hundreds—a fact absolutely to be relied upon—while under favorable conditions, such as the construction of the two transcontinental railroads to this point, according to the plans as now laid, fortunes will be made from an investment in a single lot.

The chance to make $2,000,000 is not presented every day. Do not miss a good thing for lack of nerve and a little common sense. You can't expect to reap the harvest unless you sow the seed, and—

AND—

YOU'LL NEVER GET RICH OUT OF REAL ESTATE

BY KEEPING YOUR MONEY IN THE BANK.

ELLENSBURG, W. T.

Mr. P. Bebb has arrived in and will start Ellensburg, for the first ten years at least, than any other property now on the coast, and the prices here are next to none. Our correspondent would be bound to get a 100 per cent. increase in value in the next few years.
