INVICTORS!

Do not fail to investigate the merits of the

SILVER BEACH

ADDITION TO

STEILACOOM!

Households desire a property to be sold in the addition.

ON EASY TERMS.

One-fifth cash, balance either monthly or quarterly. This property is unsurpassed for residence purposes, at the same time presenting greater inducements for the speculator than any other property on the market. The same amount of money cannot be invested to equal advantage at any other point on the coast. The advantages and merits of Steilacoom are acknowledged by all, and in the judgment of those who have made a study of the data concerning real estate investments in the United States, property at this point will, in less than ten years, be worth thousands more than it is worth now. It has billions for hundreds—a fact absolutely to be relied upon—while under favorable conditions, such as the construction of the two transcontinental railroads to this point, according to plans as now laid, fortunes will be made from an investment in a single lot.

The chance to make a FORTUNE is not presented every day. Do not miss a good thing for lack of nerve and a little common sense. You can’t expect to reap the harvest unless you sow the seed.

AND

YOU’LL NEVER GET RICH OUT OF REAL ESTATE

BY KEEPING YOUR MONEY IN THE BANK.
